NEW DIRECT-INJECTION ENGINE.

Greater torque, speed and fuel economy are yours in the new 6-cylinder Isuzu 6BB1 diesel engine. Direct-injection combustion efficiency upgrades performance on a total basis. Rated output is 92PS (JIS), 93HP (SAE gross) at 2,000rpm, while maximum torque is 35.5kg-m (261 ft-lb) at 1,600rpm. This combines with a free-wheeled torque converter to assure high efficiency in heavy-duty roles.

● Superb Fuel Economy.

TCM factory fuel economy tests show the new engine achieves energy savings of 20% per work cycle over the previous model.

MIGHTY WORKING PERFORMANCE.

Drawbar pull, gradeability and lift speed are greatly enhanced to assure substantially improved working efficiency.

COLUMN SHIFT LEVER.

The column-mounted shift lever is within fingertip reach from the steering wheel. This facilitates gear changes to increase work output and operating ease.

STANDARD POWER STEERING.

Handling in tight spaces requires only a minimum of effort because semi-integral power steering is standard. This greatly lowers operator fatigue while increasing work output.

LARGE ONE-PIECE FLOOR MAT.

TCM forklifts now have a large one-piece floor mat which further shuts out noise from the engine compartment.

KEY SWITCH AUTO-STOPPER.

Engine shut-off is as quick and easy as on gasoline engine models because an auto-stopper is equipped.

WIDER FRONT VIEW.

Lift cylinders and chains are positioned further apart to create wider forward visibility for extra safe travel and load handling.

SUPERB MAST STRENGTH.

TCM builds in remarkable unbalanced load strength by equipping the mast with 18 rollers which withstand heavy-duty lateral loads.

EASY-OPEN ENGINE COVER.

The engine cover features a stay damper that makes opening and closing effortless for routine checks and servicing. It hold the cover up and out of the way for easy access to the engine compartment.

CYCLOPAC AIR CLEANER.

The cyclopac air cleaner efficiently catches fine dust to maintain high engine performance—even in dusty environments. This extends engine life and improves reliability.

DISC BRAKES. (FD80Z7)

Ventilated front-wheel disk brakes are standard equipment for sure, non-slip stopping power under all operating conditions. These are designed for heavy-duty load handling.

FEWER GREASE FITTINGS.

The drag link, brake pedal and rear axles now feature grease-sealed ball joints. This means far fewer fittings require periodic servicing.

- Glow plug controller ●Drawbar-pin ●Starter switch ●Lifting hooks ●Load backrest
- Long life tires ●Overhead Guard ●Power brake ●Power steering
- Powershift 2-speed T/M ●Column shift direction change ●Radiator reserve tank
- Retaining Rollers ●Full wide carriage ●Convertor oil cooler ●Head & turn signal lights
- Charging light ●Hour meter ●Engine oil pressure warning light
- Water temperature gauge ●Fuel gauge ●Speedometer ●Back-up light ●Horn
- Key switch engine stop ●Neutral safety switch ●Documents clip ●Rear view mirrors
- Disc brake system (FD80) ●Tool set

OPTIONAL EQUIPMENTS & ACCESSORIES

- Back-up buzzer ●120AH, 135AH batteries ●Central greasing ●Cold weather spec.
- Sound proof spec. ●Catalytic muffler ●Fire extinguisher ●Steel Cabin ●Heater
- Port relief valves ●Rear working light ●Right hand direction change ●Solid tires
- Spark arrest muffler ●Smoke reduction muffler ●Overhead exhaust ●Suspension seat
- Hydrostatic steering ●Tilt adjustable handle ●Water separator ●Tilt cylinder boots
- Strobe light ●Steel net on head guard ●Dry charged battery ●And others on request.

ATTACHMENTS

- Side shift ●Fork positioner ●Hinged Forks ●Ram ●Fork extension sleeves
- Long forks ●Rotating forks (FD50-60-70) ●etc.

NOTES

- Overhead guard meets ANSI B56.1 and ISO-6055
- Meets following major standards
 - JIS D6001 Industrial Lift Trucks
 - ISO-1074 Counter Balanced Lift Trucks, Stability & Safety Test
 - ANSI B56.1-Parts II Low & High Lift Truck, required by OSHA sec. 1910.178(a)
 - FEM Safety Code of Lift Trucks
 - DIN Safety Code of Lift Trucks¹⁾
- Classified by UL Type D²⁾
 - 1) F.R. Germany export trucks
 - 2) North America export trucks
- Gasoline engine is available as option (FD50-60-70)
